

Mathiyon AI - Next-Gen Intelligence Platform Document

Chapter 1: Overview

Mathiyon AI is a production-grade AI platform powered by React, Node.js, and PyTorch.

Chapter 2: Frontend & Database Architecture

React 19, TypeScript, Vite, and Tailwind CSS power the user dashboard.

MongoDB provides persistent storage for users, conversations, and document chunks.

Chapter 3: Mathematical Engine Verification

Supported calculations: $\frac{1}{3} + \frac{1}{6} = \frac{1}{2}$ and linear algebra equation $2x + 5 = 15$.
